PART #	DESCRIPTION	RETAIL PRICE
SafePath™ Door Activation & Safety Sensor Products		
S.A.F.E. <small>SafePath™ Automation For Entrances</small>		
Microwave Sensors		
microStar-M	 <p>Microwave Motion Sensor w/Human Presence Radar™ (HPR™) for activating all types of automatic doors. Unparalleled motion detection protects slow moving pedestrians from doors closing prematurely.</p> <ul style="list-style-type: none"> • Fits 1 3/4" door frames • Visible LEDs to verify activation • Install mode lets pattern be set without cycling doors • HPR™ provides additional level of motion protection after initial door activation • Adjustable Unidirectional & Bi-directional • Narrow & Wide Pattern Antennas • Dual Axis Angle Adjustment 	225
microStar Accessories		
MS-BDB	Universal mounting bracket for microStar.	25
MSRC	Rain cover.	40
ID20	 <p>Long-Range Microwave Motion Sensor for activating industrial doors.</p> <ul style="list-style-type: none"> • Provides motion detection for vehicles and equipment up to 60 ft. away • Sealed aluminum, weather proof housing • Selectable Approach-only or Depart-only detection reduces unwanted door openings 	625
Infrared Sensors		
DH400	 <p>Floor Reflection Method Active Infrared Presence Sensor. Provides safety protection for all types of automatic pedestrian doors.</p> <ul style="list-style-type: none"> • One sensor covers safety zone application (single or pair: swing, slide, fold) • 5 rows of 12 points per row provide up to 60 detection zones for a dense safety pattern • Adjustable pattern width and depth 	340
DH94	 <p>Floor Reflection Method Active Infrared Presence Sensor. Provides safety protection for automatic pedestrian sliding doors with shallow approaches.</p> <ul style="list-style-type: none"> • 4 rows of 32 individual detection zones provides a dense safety pattern • Adjustable pattern width and depth 	250
DH17i	 <p>High-Mount Floor Reflection Method Active Infrared Motion or Presence Sensor for industrial door applications. Provides a precise zone of either motion detection for door activation or presence detection for safety.</p> <ul style="list-style-type: none"> • High-Mount applications between 10 ft. and 20 ft. • 4 rows of 24 individual detection zones provides a sensing area comparable to an in-ground loop detector • Selectable motion or presence detection up to 20 ft. from the door • Adjustable pattern width and depth 	590
Infrared Combination Motion and Presence Sensors		
DH100	 <p>Floor Reflection Method Active Infrared Motion & Presence Sensor. Provides all-in-one door activation and safety for automatic pedestrian sliding doors.</p> <ul style="list-style-type: none"> • 5 rows of 40 individual detection zones provides a dense rectangular pattern • Adjustable pattern width and depth 	310

RETAIL PRICE LIST 2015

PART #	DESCRIPTION	RETAIL PRICE
--------	-------------	--------------

Sedco™ Door Activation Switch Products (continued)

216 Series: Infrared "Touchless"

215

Active Infrared Switch provides hands-free/germ-free door activation. Activation distance is adjustable from 6"- 30". Ideal for ADA applications, doors located in restrooms, industrial clean rooms or surgical areas. Includes a stainless steel face plate. Add suffix PLAIN to part number for no legend on face plate.

- 216: IR Switch & 4 1/2" Square Face Plate (Fits Single & 2-Gang Junction Boxes)
- 216-L: IR Switch & 2 3/4" x 4 1/2" Face Plate (Fits Single-Gang Box)
- 216-N: IR Switch & 1 11/16" x 4 1/2" Face Plate (Fits 1 3/4" Door Frame)

216-RK Series: Retrofit Kit

495

The 216-RK Retrofit Kit is an easy, inexpensive way to upgrade existing hardwired mechanical actuators to touch-free (and therefore germ-free) switches. The 216-RK contains a new version of the 216 touchless switch designed to operate off of two wires only, and a module placed in the doors header.

Kit includes 2: 216 IR Switches; 1 216-RK Module

- 216-RK: IR Switch & 4 1/2" Square Face Plate (Fits Single & 2-Gang Junction Boxes)
- 216-RK-L: IR Switch & 2 3/4" x 4 1/2" Face Plate (Fits Single-Gang Box)
- 216-RK-N: IR Switch & 1 11/16" x 4 1/2" Face Plate (Fits 1 3/4" Door Frame)

216TX Series: Infrared Wireless "Touchless"

295

Wireless version of our 216 Active Infrared Switches. Activator distance adjustable from 1" to 5". Includes mounting box & transmitter. Four different face plate legends available.

- 216TX-HG
- 216TX-TG
- 216TX-HT
- 216TX-WT

830 Series: Heavy Duty Keyswitches

110

Rugged Keyswitches with SPDT switch in a choice of either momentary contact or maintained contact. For ultimate durability, the integral lock cylinder cover provides a key "dead stop" and protects against wires becoming tangled in the locking mechanism. Includes a stainless steel face plate.

- 830-A: Maintained Keyswitch & 4 1/2" Square Face Plate
- 830-B: Momentary Keyswitch & 4 1/2" Square Face Plate (Fits Single & 2-Gang Boxes)
- 830-AL: Maintained Keyswitch & 2 3/4" x 4 1/2" Face Plate
- 830-BL: Momentary Keyswitch & 2 3/4" x 4 1/2" Face Plate (Fits Single-Gang Box)
- 830-AN: Maintained Keyswitch 1 11/16" x 4 1/2" Face Plate
- 830-BN: Momentary Keyswitch 1 11/16" x 4 1/2" Face Plate (Fits 1 3/4" Door Frame)
- KEY-CYL: 1 1/8" Mortise cylinder with Adams-Rite cam sold separately; add \$50.00

830 Series: Combination Keyswitches & Jamb Switches

185

Rugged 830 Series Keyswitch and 59J Series Jamb Switch are integrated onto a single 4 1/2" square stainless steel back plate. Mounts to a 2-gang box electrical box.

- 830A-59J-H: Maintained Keyswitch & 59J-H
- 830B-59J-H: Momentary Keyswitch & 59J-H
- 830A-59J-HSS: Maintained Keyswitch & 59J-HSS
- 830B-59J-HSS: Momentary Keyswitch & 59J-HSS
- 830A-59J-P: Maintained Keyswitch & 59J-P
- 830B-59J-P: Momentary Keyswitch & 59J-P
- 830A-59J-W: Maintained Keyswitch & 59J-W
- 830B-59J-W: Momentary Keyswitch & 59J-W
- 830A-59J-WSS: Maintained Keyswitch & 59J-WSS
- 830B-59J-WSS: Momentary Keyswitch & 59J-WSS
- 830A-59J-PLAIN: Maintained Keyswitch & 59J-PLAIN
- 830B-59J-PLAIN: Momentary Keyswitch & 59J-PLAIN
- KEY-CYL: 1 1/8" Mortise cylinder with Adams-Rite cam sold separately; add \$50.00

608, 628 and 514 Series Door Activator Switch Bollards w/LongLife™ Finishes

Heavy duty construction. Each bollard is made from 1/8" thick tubular steel with a two-coat industrial grade exterior powder coated finish; these switch bollards are the most durable available.

608 BOLLARD ASSEMBLY INCLUDES: 5" X 5" X 42" Bollard w/LongLife™ Finish, Rugged Polycarbonate Cap and ABS Plastic Rust Shield. Steel "U" Shaped Surface Mounting Shoe is included standard (part number ending in 42). Surface external option features mounting plate welded to the bollard to provide additional stability and easier installation. For Surface external, change 42 to SE at no additional charge. For In-Ground Mounting, change 42 to 58 and add \$40.

608 Blank Bollard Assembly Only **360**

Customize in the field. Bollard has no cutout preps.

- 608-GR-42: Gray Bollard Assy

For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black): In-ground mounting shoe add \$40.00; Change Suffix 42 to 58

608-J Bollard Assembly with Switch Cutout **370**

Add your own switch. Bollard is prepped with a 2-gang cutout (2 7/8" x 3 1/4").

- 608-J-GR-42: Gray Bollard Assy w/2-Gang Cutout

For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black): In-ground mounting shoe add \$40.00; Change suffix 42 to 58

608-R Bollard Assembly with Recessed Switch Cutout **380**

Add your own switch. Bollard is prepped with recessed switch cutout and mounting bracket (5" x 5" cutout).

- 608-R-GR-42: Gray Bollard Assy w/2-Gang Cutout

For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black): In-ground mounting shoe add \$40.00; Change suffix 42 to 58

608 Bollard Assembly with Recess Mounted Switch **450**

Includes everything needed. Bollard assembly with recess mounted 59 Series Switch installed.

- 608-H-GR-42: Gray Bollard Assy, Recessed 59-H
- 608-HSS-GR-42: Gray Bollard Assy, Recessed 59-HSS
- 608-P-GR-42: Gray Bollard Assy, Recessed 59-P
- 608-W-GR-42: Gray Bollard Assy, Recessed 59-W
- 608-WSS-GR-42: Gray Bollard Assy, Recessed 59-WSS

For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black), Surface External Option (Foot), Change Suffix 42 to SE. In-ground mounting shoe add \$40.00; Change suffix 42 to 58

608 Bollard Assembly with Wireless Recess Mounted Switch **525**

Complete wireless package. Bollard assembly with recess mounted 59 Series Switch installed, transmitter and mounting platform (CP/TX-P).

- 608-HT-GR-42: Gray Bollard Assy, Recessed 59-H, CP/TX-P
- 608-HSST-GR-42: Gray Bollard Assy, Recessed 59-HSS, CP/TX-P
- 608-PT-GR-42: Gray Bollard Assy, Recessed 59-P, CP/TX-P
- 608-WT-GR-42: Gray Bollard Assy, Recessed 59-W, CP/TX-P
- 608-WSS-GR-42: Gray Bollard Assy, Recessed 59-WSS, CP/TX-P

For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black), Surface External Option (Foot), Change Suffix 42 to SE. In-ground mounting shoe add \$40.00; Change suffix 42 to 58

Sequencing transmitter add \$20.00; Change T to S;

ClearPath Spectrum, add \$30; Change T to -TRX (example: 608-H-TRX-GR-42)

ClearPath Radio Control Products

Universal radio control products. All products feature selectable frequencies: HDRC™, 300 MHz and 390 MHz. ClearPath™ provides the most reliable wireless activation of automatic doors.

ClearPath™ Transmitters

All transmitters feature SignalLock™ that will guarantee the radio signal is transmitted every time a switch is activated.

CP/TX (59); CP/TX-R4 (59R4); CP/TX-R6 (59R6): Wall Mount Transmitters **70**

Complete with transmitter, integrated signal enhancing antennas, wire harness and 9V battery installed in a surface mounting box.

For 1015 surface box, specify CP/TX-1015
Pictured with 59-HSS, 59R4-HSS & 59R6-HSS (sold separately).

CP/STX (59); CP/STX-R4 (59R4); CP/STX-R6 (59R6): Vestibule Sequencing Transmitters **95**

Vestibule sequencing version of the CP/TX. Sequence the opening of vestibule doors one after the other from either direction.

For 1015 surface box, specify CP/STX-1015
Pictured with 59-HSS, 59R4-HSS & 59R6-HSS (sold separately).

CP/TX-J: Jamb Mount Transmitter **70**

Complete with transmitter, wire harness and 9V battery installed in the 1010 jamb surface mounting box.

Pictured with 59J-H (sold separately).

CP/STX-J: Vestibule Sequencing Transmitter **95**

Vestibule sequencing version of the CP/TX-J. Sequence the opening of vestibule doors one after the other from either direction.

Pictured with 59J-H (sold separately).

CP/TX-V: Dual Transmitters **130**

Complete with 2 transmitters, wire harnesses and 9V batteries installed in the 1015 surface mounting box. Individually operate 2 doors in a vestibule when used in combination with the 59V Vestibule Series Switches.

Pictured with 59V-H (sold separately).

CP/TX-P: Post Transmitter **70**

Complete with transmitter, wire harness and 9V battery installed on a mounting platform that spans the top of the 608 Series Post assembly.

ClearPath™ Kits

Kits listed below include -H face plates. For -HSS face plates, substitute HSS for H in the part number below, for -P face plates, substitute P for H.

Package 59	CTP-H	2:59-H; 2:CP/TX; 1:CP/RX	305
Package 59R4	CTP-R4-H	2:59R4-H; 2:CP/TX-R4; 1:CP/RX	305
Package 59R6	CTP-R6-H	2:59R6-H; 2:CP/TX-R6; 1:CP/RX	330
Package 59J	CTP-J-H	2:59J-H; 2:CP/TX-J; 1:CP/RX	300
Vestibule Package 59	CTP-HV	2:59-H; 2:CP/STX; 1:59V-H; 1:CP/TX-V; 2:CP/RX	635
Vestibule Package 59J	CTP-JHV	2:59J-H; 1:59V-H; 2:CP/STX-J; 1:CP/TX-V; 2:CP/RX	630

Dual-Switch ClearPath™ Kits—NEW!

Kits listed below include -H face plates. For -HSS face plates, substitute HSS for H in the part number below, for -P face plates, substitute P for H.

CTP2-H	4:59-H; 4:CP/TX; 1:CP/RX	543
CTP2-R4-H	4:59R4-H; 4:CP/TX-R4; 1:CP/RX	543
CTP2-R6-H	4:59R6-H; 4:CP/TX-R6; 1:CP/RX	591

ClearPath Spectrum 2.4 GHz Radio Control Products

The next generation of our radio control products. The ClearPath Spectrum features a 2.4 GHz frequency that provides reliable wireless activation and versatile programming for automatic door activation.

S-TRX; S-TRX-R4; S-TRX-R6: Wall Mount Transceivers

100

Complete with transceiver, wire harness and battery installed in a surface mounting box.

For 1015 surface box, specify S-TRX-1015
Pictured with 59-H, 59R4-H & 59R6-H (sold separately).

S-TRX-J: Jamb Mount Transceiver

100

Complete with transceiver, wire harness, and battery installed in a 1010 jamb surface mounting box.

Pictured with 59J-H (sold separately)

S-TRX-V: Dual Transceivers

190

Complete with 2 transceivers, wire harnesses, and batteries installed in a 1015 surface mounting box.

Pictured with 59V-H (sold separately)

S-TRX-P: Post Transceiver

100

Complete with transceiver, wire harness, and battery installed on a mounting platform that spans the top of the 608 Series Post assembly.

PART #	DESCRIPTION	RETAIL PRICE
	<h2>The Commander Series Timing Controls & Lock Out Modules</h2>	
TDM Time Delay Module		95
	Universal Time Delay Module provides up to 4 inputs that can be converted to sequential relay outputs. Each output is adjustable 0-99 seconds. The TDM can add additional time of 0-99 seconds, sequence electric locks and automatic doors or sequence vestibule doors all from a single device.	
TDM-HC High-Current Time Delay Module		190
	TDM with the output 1 relay rated for a current inrush of 20 amps, making the TDM-HC compatible with all common locking devices.	
RLM-Kit		225
	Integrated Relay Lockout Module with Safety Beams. Intelligent Door Position™ Monitoring Circuitry determines relay lockout time during a door's closing cycle, eliminating the need for trial and error manual adjustment. Provides single source control of approach sensor, overhead safety sensor and safety beams installed on swing door operators.	
RLM Components		
RLM		105
RLM Control Module ONLY		
RLM-SB		130
1 set TX & RX Sensor Heads with 15' cables.		
SAM Secondary Activation Module		120
	Integrated Timing Module to meet secondary activation requirements of Knowing Act Swing Doors. Intelligent Door Position™ Monitoring circuitry determines the timing for turning on and off an approach sensor after initial door activation by a push plate while simultaneously monitoring the overhead safety sensor and locking out its signal during a door's closing cycle. Provides single source control of push plate, approach (secondary activation) sensor and overhead safety sensor.	
PTM Privacy Timing Module		
	The PTM is a timing module that allows users to control an automatic door operator for a room where privacy is a concern, such as a washroom, restroom, clean room, or photo development room. From the outside of the room, users are able to activate the door. Once inside, users are able to lock the door which prevents access from the outside "push to open" button. When egress is desired, the user presses an inside "push to open" button which deactivates the lock and activates the door. A keyswitch override is present on the exterior, as well as LEDs to indicate if the room is occupied.	
	<p>PTM: (module and wire harness only)</p> <p>PTM-KIT: Includes module, wire harness, interior dual switch (59V-PTM), exterior combo switch (830B-59J-PTM), and door position switch.</p>	<p style="text-align: right;">159</p> <p style="text-align: right;">405</p>

DOOR PRODUCTS REPAIR & RETURN POLICY

WARRANTY REPAIRS:

Warranties cover parts and workmanship provided by MS SEDCO. Repair warranties are void if units are altered by anyone other than the MS SEDCO Repair Center. All warranties begin at invoice date unless specified by MS SEDCO. Customer will pay freight charges to return defective units to MS SEDCO Repair Center. Units will be repaired to proper working order and returned in "cosmetically same" condition at no charge. MS SEDCO will pay freight charges to ship repaired warranty units back to customer. **

OUT OF WARRANTY REPAIRS:

All units out of warranty that are returned for repair will be charged under the MS SEDCO repair rates shown below. Units will be repaired to proper working order and returned in "cosmetically same" condition. All units exceeding 5 years over warranty period will be scrapped on site, or returned to customer (at customers freight cost) unrepaired.

ADVANCE EXCHANGE PROGRAM:

MS SEDCO Repair Center advance exchange program allows you to receive refurbished units quickly. Shipping and handling charges are extra. Please send your malfunctioning unit to us within 10 days to avoid up-charges. Up-charges also apply if the unit MS SEDCO receives is not repairable due to excessive damage or an incorrect model. Up-charges are generally assessed as the difference between the repair price and the new product price. All warranties on exchanges are subject to the same standard terms and conditions as a repaired unit. Advanced exchange units must be returned with all accessories (brackets, transformers, harnesses, manuals) or will be charged per non-returned accessories.

ADVANCE EXCHANGE RETURN POLICY:

MS SEDCO Repair Center accepts returns on advance exchange units. All advanced exchange units must be returned within 10 days of the original exchange order. Items may be assessed a 15% restocking fee and all applicable shipping and COD charges will apply. Advanced exchanged units must be returned in original packaging. Damaged units will not be accepted for exchange credit. Please contact customer service to receive authorization for the return before shipping it to MS SEDCO. MS SEDCO will only issue credits for returned units not refunds.

TURNAROUND TIME:

MS SEDCO Repair Center turnaround time typically requires 72~96 hours plus shipping on all units.

EXPEDITING ORDERS:

Some orders can be repaired in 24 hours for an additional charge. Call to see if your order qualifies. Expedited orders are charged at 30% above the repair price.

PAYMENT TERMS:

Payment is required prior to shipping unless a credit application has been received and accepted by MS SEDCO. Repaired units will be detained if customer is on credit hold with MS SEDCO billing department. Detained units will be returned after credit hold has been lifted from MS SEDCO billing department. Repairs can be billed by credit card for non net 30 day customers.

RETURN SHIPPING:

All repairs are returned via ground service. For an additional charge, guaranteed overnight service is also available. Customers are responsible for all shipping, customs and insurance costs on out of warranty repairs and express units. When possible, we will ship via your requested carrier.

MS SEDCO REPAIR RATE:

Door Sensors	\$70.00 (Pedestrian)
	\$120.00 (Industrial)
Door Accessories	\$40.00

Rates do not include freight and are subject to change without notice.

EVALUATIONS:

MS SEDCO Repair Center will evaluate certain units for repairability at no charge. If you have an item requiring repair, please contact us to see if it qualifies for a free repair evaluation.

**UNREPAIRED UNITS:

MS SEDCO reserves the right not to repair any units that have excessive damage, missing parts, or for which parts are currently unavailable. Unrepaired items will be returned with billed shipping charges, or scrapped on site at no charge.

Any items being returned to MS SEDCO, regardless of reasons, must have an RMA Number and be marked to the attention of the return or repair department on outside of shipping carton. Call 1-800-842-2545 and ask for an RMA number. A returned merchandise authorization number will be issued upon request and a copy will be faxed to you. Please include a copy of the RMA sheet with returned items to insure proper handling of returns.

RETURN FOR CREDIT

- All items being returned for CREDIT must have an MS SEDCO original invoice number included with the items to ensure proper credit.
 - Unused and unopened items** will be issued full credit if returned within 30 days. A 15% restocking fee will be assessed on items returned after 30 days past invoice date. No credit will be issued after 6 months past invoice date.
 - Unused but opened items** will be assessed a 15% restocking charge if returned within 30 days of invoice date and it is determined the items can be resold as new. If it is determined that the items cannot be resold as new, the items will be returned or scrapped at the customer's discretion. No credits will be issued after 30 days past invoice date.
 - Used items** cannot be returned for credit.
 - Custom Products** cannot be returned for credit.
- In the event items are being returned due to an error on MS SEDCO part, MS SEDCO will issue a call tag and pay freight charges for returned items. The customer will pay freight charges on all returns for any other reason.
- MS SEDCO will only issue credit for returned items—not refunds.
- No credits will be issued for products with missing serial numbers.
