**Product Description**

**BASIC USE**

The S-TRX-J Transceiver is a part of the ClearPath Spectrum Wireless System. When used in conjunction with the S-COR Coordinator, the S-TRX-J functions in a similar role as traditional wireless transmitters, but this is where the similarities end. The Spectrum Wireless System provides several industry firsts:

- Digital two-way communication allows for greater security and ensures successful signal transmission between devices.
- LCD screen (S-COR) for quick and easy programming.

- Upon switch activation, the Transceivers communicate valuable information that is displayed on the LCD screen including: device ID, signal strength and battery monitoring.
- Pairing of multiple Transceivers with Coordinators.
- Two built-in outputs (S-COR).
- 3 year battery life (S-TRX-J).

ClearPath Spectrum products operate at 2.4 GHz, making the wave length more than 5 times shorter than commonly-used frequencies. Shorter waves pass through cracks and barriers easier, and transceivers will continue to attempt to contact the Coordinator until it receives an acknowledgment.

**APPLICABLE STANDARDS**

American National Standards Institute (ANSI) - Building Hardware Manufacturers Association (BHMA) - ANSI/BHMA A156.10 & A156.19.

**APPROVALS**

FCC

**Availability & Cost**

**AVAILABILITY**

Available internationally from manufacturer's authorized distributors; contact MS SEDCO for the location of nearest distributor.

**COST**

Cost information on MS SEDCO products is available from the manufacturer's authorized distributors.

**Warranty**

A one year warranty is available from the manufacturer covering defects in materials and workmanship. Contact MS SEDCO for details.

**Maintenance**

MS SEDCO recommends that all maintenance and adjustments be performed by an AAADM Certified Technician.

**Technical Services**

MS SEDCO's staff of factory trained sales and service personnel offer design assistance and technical support. Local distributors are also available to assist in selecting appropriate devices for specific uses and to provide onsite installation.
