

TCIB-CC

INTERSECTOR Card Cage

INSTALLATION INSTRUCTIONS

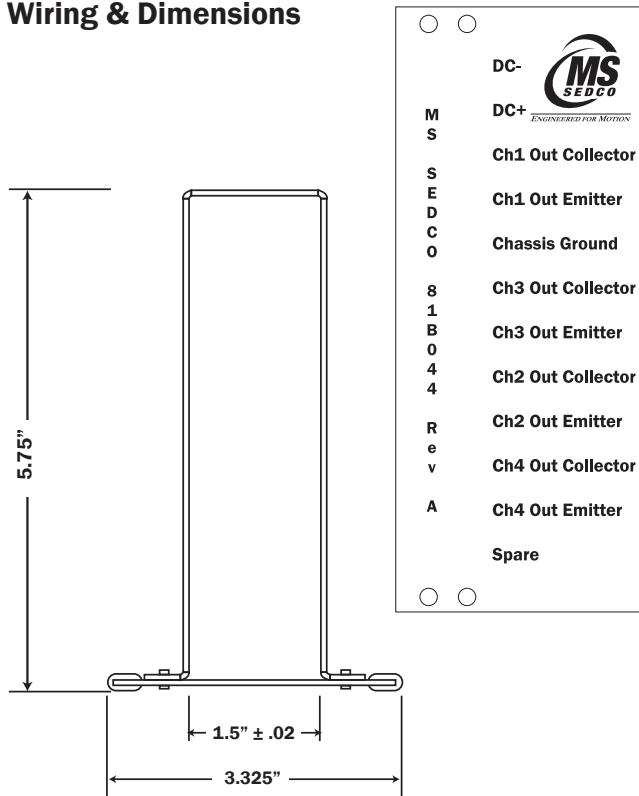

Section 1

General Description

The TCIB Card Cage (TCIB-CC) provides all the necessary hardware and harnessing required to allow the simple wiring of a TCIB Single Space Card to the detector output and controller inputs. The TCIB-CC is equipped with a 48" long cable which is wired to the controller. The cable carries all the power wiring, safety ground, and card outputs terminated to a 12 point terminal block which is typically mounted in the wiring compartment of the cabinet.

Technical Data

Model..... TCIB-CC
 Power Requirements..... 12-24V DC
 Temperature..... -30 °F to 165 °F
 (-34 °C to 74 °C)
 Size..... 3.325"W x 5.75"H x 7.75"L
 (8.5cmW x 14.6cmH x 19.7cmL)
 Weight..... approx. 4 lbs. (1.8 kg)
 Mounting..... Unit can stand or lie on shelf

Section 4

Warranty

MS SEDCO guarantees this product to be free from manufacturing defects for 18 months from invoice date unless specified by MS SEDCO. If, during the first 18 months, this device fails to operate and has not been tampered with or abused, the unit can be returned prepaid to the factory and it will be repaired free of charge. After 18 months, the unit will be repaired for a nominal service charge. **This limited warranty is in lieu of all other warranties, expressed or implied, including any implied warrantability of merchantability, and no representative or person is authorized to assume for MS SEDCO any other liability in connection with the sale of our products. All warranties are limited to the duration of this written limited warranty. In no event shall MS SEDCO be liable for any special, incidental, consequential or other damages arising from any claimed breach of warranty as to its products or service.**
